Kreisjägerschaft Aachen Stadt und Land e.V.
im Landesjagdverband NRW e.V.

Experience wildlife
Touching allowed!

We are certified!

Experience the size of a bear very close up, marvel at our wet biotope and take a look under water.

What does the beaver's habitat look like and what does the fox do in the hen house?

Which animals live under the earth? How much does the full rumen (stomach) of a roe weigh? How big is a lion really?

How big is a deer or roebuck? Does a polar bear really have a white coat?

Almost all preparations can be felt, experienced and understood. With us, every visitor – whether old or young – can really experience nature „very close“!
